"At Gulfstream, we believe that innovation can be best described as an idea successfully applied.

Using that definition, the Ocean Exchange captures innovation in its truest sense. The solutions that emerge from this conference have real-world impact. They demonstrate our commitment to preserving our oceans, ensuring sustainable growth and protecting the environment.

The conference may be short, but the impacts are long-lasting."

“Now is the time to begin sharing your knowledge and ideas, to help create the solutions that will move our world forward.

The giant steps we’re looking for might already be in your hands; concepts ready to be realized or solutions ready to take the leap from one industry to the next.”

MONETARY AWARDS

The Gulfstream® Navigator Award 2013

\$100,000 is given to the Solution that best demonstrates the greatest potential to LEAP TO ZERO+ with applicability across multiple industries generating positive impact on the environment, economies and health while respecting cultures around the world.

In 2012 Wave Gliders travelled unassisted from California to Japan and Australia, collecting Ocean data and breaking the Guinness world record for robots. One of these Wave Gliders will soon be on display in the Smithsonian Museum. The international fleet of Wave Gliders continues to grow and work around the world.
