

SHARK EXPLORERS INTERNSHIP

Education Through Experience

Recruiting Island School Alumni for 21 day internship

Shark Explorers philosophy is to change people's perspective on sharks through unique dive expeditions and to help protect the ocean's ultimate predator. Our core values lie in leadership, independence, education and environmental awareness. In 2014, five Island School alumni pioneered the Shark Explorers Internship in Cape Town, South Africa. This August (1st to the 21st) we are looking for a new group of young leaders to join our team. We at Shark Explorers strive to promote responsible shark tourism and we have been successful through the energy and dedication of our staff and interns.
